

KS MIECHV DAISEY Report Guide

Missing Data Report

Purpose of this report

This report will assist home visitors, supervisors, and state leads with identifying missing or incorrect data to ensure a complete and correct dataset is represented.

Reminder: Primary caregivers and children with profiles and activities entered into DAISEY will be represented in reports. The data only reflects families that are enrolled during the date range selected in the filter and have a completed enrollment/discharge form.

What is counted in this report

This report represents data entered into DAISEY for Kansas MIECHV programs. All dashboards will provide information on *Missing* and *Complete* data; some graphs may have *Unknown* or *Invalid* data. To further explore the *Unknown* or *Invalid* data, it will be necessary to view the underlying data (refer to the [Accessing Underlying Client-Level Data guide](#)).

DAISEY reports update on a nightly basis. Data entered into DAISEY will be available in reports the next day.

Report filters

Reports can be filtered by Reporting Year, Organization, Program Model, County, and Home Visitor Name, which can be selected in a drop-down menu.

Figure 1: Missing Data Report filter options

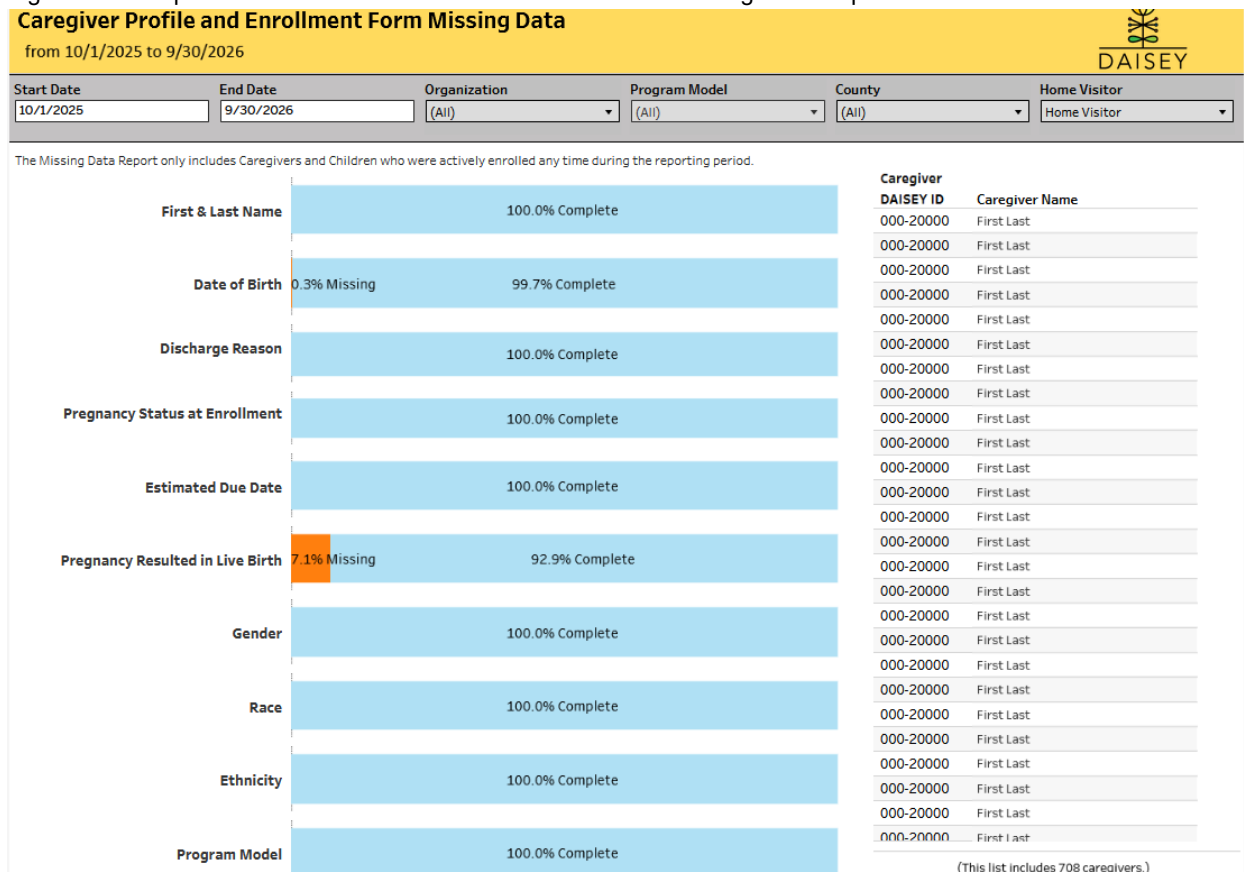

Start Date	End Date	Organization	Program Model	County	Home Visitor
10/1/2025	9/30/2026	(All) ▼	(All) ▼	(All) ▼	Home Visitor ▼

Report dashboards

The dashboards for the Missing Data Report are primarily arranged by KS MIECHV DAISEY form, with the exception of profiles and enrollment-discharge forms being combined into one dashboard each for caregivers and children and the Priority Population questions being separated into their own dashboard.

- ✱ These dashboards do not consider whether a caregiver/child is listed as Active or Inactive.
- ✱ To find the caregiver/child missing an answer, select the orange bar and the Caregiver/Child IDs will be listed in the right column.

Figure 2: Example of one of the dashboards available on the Missing Data Report
