

Kansas MIECHV DAISEY Technical Assistance Brief Form 2 Report Guide

PURPOSE OF THIS REPORT

This report provides data on how Kansas MIECHV programs perform using the benchmarks established by the Health Resource and Services Administration (HRSA), the funder for the MIECHV program. Each dashboard provides a visual of benchmarks (broken out into measures), who is considered for that benchmark, a performance bar and a missing data bar for each measure.

WHAT THIS REPORT REPRESENTS

All forms and assessments completed in DAISEY will be reflected in this report. Please refer to the Kansas MIECHV DAISEY website for guidance on each measure, <https://kshv.daiseysolutions.org/articles/benchmark-timetable/>.

USING FILTERS

Use the following filters to determine the data to review:

Reporting year (Fiscal Year), Reporting Period, Organization Name, Program Model, and County.

Reporting Year	Reporting Period	Organization Name	Program Model	County
Oct 2024 to Sep 2025	Full Year	(All)	(All)	(All)

*Reports will only display if the correct Organization is selected and matches the user's access in DAISEY.

REVIEWING DATA

To determine which participants are included in a bar, click on a section of the bar and the list on the right will reflect Primary Caregivers and/or Children included in that count. Click a section of the bar to determine those included in the count; click the bar a second time to remove the filter to reset the list to include all clients.

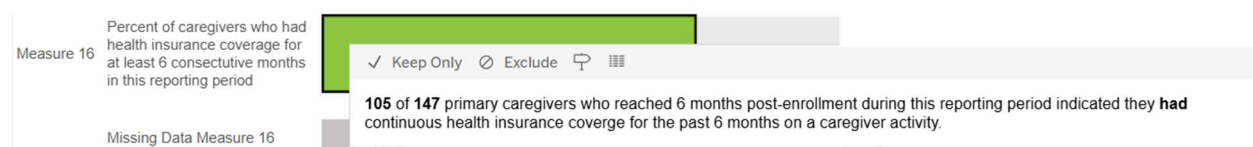

Benchmark 1 - Maternal and Newborn Health

*these tabs are also included in this report.

In this report, the **green** section of the bars represents clients who meet numerator criteria for the measure. The **gray** section of the bar represents clients that are counted in the denominator but **do not** meet the requirements of the numerator. To determine the number of caregivers/children in each bar, simply hover over that bar:

MIECHV Measures Table

Description: The Measures Table below can be used to understand which forms and questions address HRSA common measures criteria.			
Measure	DAISEY Form Name	Inclusion Criteria	Question Label(s)
Measure 1: Preterm Birth	Child Profile	Of target children, those born before 37 weeks are included in the numerator and children born at or after 37 weeks are included in the denominator.	"Gestational age at birth (in weeks)"
Measure 2: Breastfeeding	Child Demographics	Of target children who were enrolled prenatally and are at least 6 months of age during the reporting period, those that were breastfed until at least 6 months are included in the numerator.	"Did the child receive any amount of breast milk at age 6 months?"
Measure 3: Depression Screening	Caregiver Activities Form	Of primary caregivers, those who received an EPDS screening on or between the target child's date of birth and the caregiver's 3-month postpartum date are included in the numerator. NOTE: Any EPDS completed before the caregiver gives birth will be excluded from this criterion.	Date of EPDS completion.
Measure 4: Well-Child Visit	Child Activities Form	Of target children, those up-to-date on well child exams are included in the numerator and those not up to date on well child exams are included in the denominator.	"Did the child receive the last recommended well-child visit based on the child's current age?"
Measure 5: Postpartum Care	Home Visit Form	Of primary caregivers, those who reached 8-weeks postpartum in the reporting period and who received a postpartum medical visit are included in the numerator.	"Did they receive a postpartum medical visit?"
Measure 6: Tobacco Cessation Referrals	Caregiver Demographics	Primary caregivers enrolled in home visiting who reported using tobacco or cigarettes at enrollment and who were referred to tobacco cessation counseling or services within 3 months of enrollment will be counted in the numerator.	"Was the caregiver using tobacco or cigarettes at enrollment?", "Was the primary caregiver already receiving tobacco cessation services?". "Date of referral for tobacco cessation"
Measure 7: Safe Sleep	Child Demographics	Target children whose primary caregiver reports that they are always placed to sleep on their backs, without bed-sharing and without soft bedding are included in the numerator. NOTE: The response on the most recent Home Visit Review Form withing the selected	"Is/was infant always placed to sleep on their back, without bed sharing or soft bedding, through 12 months of age?"

		date range will determine numerator eligibility.	
Measure 8: Child Injury	Child Activities Form	Those with ER visits > 0 are counted in the numerator. Those with visits = 0 are counted in the denominator.	"Number of child ER visits due to injury since the last visit"
Measure 9: Child Maltreatment		Not included in Form 2 but is captured and reported outside of DAISEY.	
Measure 10: Parent-Child Interaction	Child Activities Form	Primary caregivers who have had a PCI form completed in the reporting period are counted in the numerator.	"Which Parent-Child Interaction Assessment was Completed?"
Measure 11: Early Language and Literacy Activities	Child Activities Form	Primary caregivers who report reading, telling stories, or singing songs to the child every day in a typical week are included in the numerator.	"During a typical week, does a family member read, tell stories, or sing songs to the child every day?"
Measure 12: Developmental Screening	Child Activity Form	Of index children aged 9-30 months, those who have had an age appropriate ASQ-3 screener in the reporting period are in the numerator.	Date of activity from ASQ-3 screener (9, 18, or 24-months)
Measure 13: Behavioral Concerns	Home Visit Form	Number of postnatal home visits where primary caregivers enrolled in home visiting were asked if they have any concerns regarding their child's development, behavior, or learning is counted in the numerator.	"Was Caregiver asked if they have any concerns for their child's development, behavior, or learning?"
Measure 14: Intimate Partner Violence Screening	Home Visit Form	Primary caregivers enrolled in home visiting who are screened for IPV using a validated tool within 6 months of enrollment are included in the numerator.	"Date of Relationship Screen (WEB)"
Measure 15: Primary Caregiver Education	Caregiver Demographics	Primary caregivers who enrolled in or maintained continuous enrollment in middle school or high school, or completed a high school degree or equivalent after enrollment in home visiting are included in the numerator.	"Current education status", "Is the caregiver currently enrolled in high school or a GED program?"
Measure 16: Continuity of Insurance Coverage	Caregiver Demographics	Primary caregivers enrolled in home visiting who reported having continuous health insurance coverage for the most recent 6 consecutive months at the most recent data collection time point in the reporting period are included in the numerator.	"Has this caregiver had continuous health insurance coverage for the past 6 months?"
Measure 17: Completed Depression Referrals	Home Visit Form	Primary caregivers enrolled in home visiting who received a positive depression screening and received recommended services for depression are included in the numerator.	"Date of referral completed for depression"

Measure 18: Developmental Referrals	Child Activity Form	Target children with an ASQ-3 9,18, or 30 month positive screen and who were referred to services are included in the numerator.	Positive ASQ-3 screening score, "Date of 9, 18, or 24-month ASQ-3 referral completed"
Measure 19: Intimate Partner Violence Referrals	Home Visit Form	Primary caregivers who are screened for IPV using a validated tool within 6 months of enrollment, and who receive a positive screening score resulting in referral to services are included in the numerator.	Positive IPV screening score, "Date of referral made for Intimate Partner Violence".
