

Overview of Screening/Assessment Instruments for Child Development Delay Screening

Benchmark Measure 12: Developmental Screening

Benchmark Measure 18: Completed Developmental Referrals

Requests to use another validated parent-child interaction observation tool must be submitted to KDHE for review and approval.

Ages & Stages Questionnaires ®, Third Edition (ASQ-3™)

Source/More Information: <http://agesandstages.com>

Purpose/Features: To screen for developmental delays and progress. Series of 21 questionnaires - each contains 30 developmental items covering communication, gross motor, fine motor, problem-solving and personal/social development domains. Parents or caregivers complete the questionnaires, trying activities with the child, and check the box that best describes what the child can do (yes, sometimes, or not yet).

Child Age Range: 2-60 months (can be utilized 1 months to 66 months)

Languages: English, Spanish, and French

Admin Time: About 10-15 min. to complete each questionnaire

Scoring: 2-3 minutes to score; All domain areas are scored as subscales then combined for a total score.

Training: Training for staff is recommended, although not necessary. Numerous trained trainers are in Kansas. Training DVDs are also available for purchase (see website above).

Cost: Yes. See website above for source and more information.

Cutoff Scores for ASQ-3 by Age Interval

<i>Month of ASQ</i>	Communication	Gross Motor	Fine Motor	Problem Solving
2	22.77	41.84	30.16	24.62
4	34.60	38.41	29.62	34.98
6	29.65	22.25	25.14	27.72
8	33.06	30.61	40.15	36.17
9*	13.97	17.82	31.32	28.72
10	22.87	30.07	37.97	32.51
12	15.64	21.49	34.50	27.32
14	17.40	25.80	23.06	22.56
16	16.81	37.91	31.98	30.51
18*	13.06	37.38	34.32	25.74
20	20.50	39.89	36.05	28.84
22	13.04	27.75	29.61	29.30
24*	25.17	38.07	35.16	29.78
27	24.02	28.01	18.42	27.62
30	33.30	36.14	19.25	27.08
33	25.36	34.80	12.28	26.92
36	30.99	36.99	18.07	30.29
42	27.06	36.27	19.82	28.11
48	30.72	32.78	15.81	31.30
54	31.85	35.18	17.32	28.12
60	33.19	31.28	26.54	29.99

***Note:** For MIECHV purposes, screenings must occur for child age 9, 18, and 24 months. These age intervals and cutoff scores are highlighted in the table above.
